

Tested Action	GitHub Commit ID	Expected Output	Actual Output	Pass/Fail	Notes
Navbar links navigate to respective pages	abcd123	Click on "About", "Browse", etc. opens the correct .html page	All links worked correctly	Pass	—
Images load on home/about pages	bcde234	Background image and imgs/ content appear correctly	One image was missing due to incorrect file name	Fail	Renamed image to match the link exactly. Used lowercase, no spaces in file name.
Hover effect on .OnAir logo	cdef345	Logo changes color and raises slightly on hover	Works as expected	Pass	Consider adding cursor: pointer to reinforce interactivity
Stat bars animate on hover (slide left to right)	defg456	.bar-fill slides out, .bar-label appears	Animation works, but label had slight delay	Pass	Adjusted transition delay to sync label and bar more smoothly.
Submit button hover state	efgh567	Button background turns light, border becomes teal	Fully functional	Pass	Suggest adding aria-label for accessibility.
Hero background loads correctly on all viewports	fghi678	Hero section image and overlay render without overlap issues	Background cut off on small screens	Fail	Added background-size: cover and adjusted padding on mobile.
Form field focus style	ghij789	Form fields highlight teal border on focus	Works as intended	Pass	Add :focus-visible support for better keyboard accessibility.

Typography hierarchy consistency (H1–H3)	hijk890	Headings appear in correct font, size, and color	H3 rendered differently due to missing font	Fail	Added 'DM Sans' to import link and verified via browser dev tools.
GitHub Pages deployment	ijkl901	Site loads at https://jaked0110.github.io/Intro-to-Web-Development/	Site deployed successfully	Pass
